SUBASREE D

+91 8525857383 | sreesuba219.2005@gmail.com | linkedin.com/subasree-d/ | github.com/subasreebhoopesh

SUMMARY

Aspiring Full Stack / MERN Stack Developer with hands-on experience building responsive, secure, and scalable web applications using MongoDB, Express.js, React, and Node.js, along with Java and SQL for backend and database-driven development. Skilled in developing RESTful APIs, role-based authentication systems, and real-time features through academic projects and internships. Strong problem-solving ability, teamwork, and a continuous learning mindset, with a keen interest in contributing to full stack development roles.

SKILLS

Programming: Java (OOP), JavaScript, SQL

Full Stack / MERN Stack: MongoDB, REST APIs

Web Technologies: HTML, CSS, Responsive Web Design

Tools and Platforms: Git, GitHub, VS Code

PROJECTS

Smart Campus Placement Portal — React, TypeScript, Node.js, MongoD https://smart-campus-placehub.vercel.app

- Developed a full-stack campus placement management system with role-based access for **Admin, HR, and Students**. Implemented secure **JWT authentication**, placement drive management, eligibility-based student applications, resume uploads, and automated email notifications. Integrated PDF offer letter generation and deployed the application using **Vercel, Render, and MongoDB Atlas**.

Blood Donation Platform — React, TypeScript, Supabase, PostgreSQL

GitHub Link - https://github.com/subasreebhoopesh/blood-donation-system

- Developed a platform connecting blood donors with patients in need, with secure authentication and a PostgreSQL database managing donor profiles, blood requests, and donation history
- Built search and filtering features by blood type, location, and age, with urgency tracking from LOW to CRITICAL levels

CONSOLE PROJECT

Smart Attendance and Leave Management System — Java, MySQL, JDBC

- Developed a console-based system supporting role-based access for Admin and Employees, enabling attendance tracking and leave approval, with JDBC used for secure database connections

TECHNICAL SUMMARY

- Strong foundation in database management concepts
- Experience working with RESTful APIs and role-based authentication in academic projects
- Familiar with Git and GitHub for version control and collaborative development
- Demonstrates adaptability and a continuous learning mindset to keep up with new technologies

EDUCATION

Bachelor of Technology in Information Technology | SSIET | 2023-2027 | CGPA 8.16

INTERNSHIP

COGNIFYZ - Gained practical experience in web development through an internship, working on real-time tasks and improving problem-solving, communication, and technical skills.

CERTIFICATION

- TCS ION - Completed a Web Development internship with hands-on experience building responsive web pages and working on real-time tasks
- UDEMY - Completed a Web Development course with hands-on experience in HTML, CSS, JavaScript, React, and backend basics, focusing on building responsive web applications
